He reached a point near Dahlney river, in a desclate and forbidding region, when the forlorn wailing of a dog surprised him. He found the dog, a half starved sherperd, in much distress. Following the animal Robertson was brought to a seemingly deserted cabin some 400 yards above the river, concealed in a chump of spruce.

"I ventured to the door of the shack and knocked," said Robertson, "and there was a feeble 'Come in.' All was darkness inside, and there was no sign of a fire, I caught sight of a bit of candle on the table, which I lighted and then advanced to where a man lay With a feeble effort he turned and stared at me for a full minute. ## THE ADVANTAGES CEMENT ROOFING

Tin, Iron and Steel Roofing

IT CANNOT RUST.

Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement

It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof. #### IMPROVEMENT ASSOCIATION

WAILUKU, June 10-A meeting of the Improvement Association of Wai-luku District was held at the Court House last night, at which a large number of members were present The principal business transacted was on the motion of Kepotkai made some time ago, amending the name of the Association to the Improvement Association of Maui. This motion was lost by a big majority, it having been shown in the meantime that the other districts were organizing their own associations. Lahaina has already effected a similar organization while Makawao is taking steps to form the same kind of an organization
